

MEET McLAREN

HEAD AND NECK ONCOLOGY SERVICES

Karmanos Cancer Institute at McLaren Flint

If your patient has been diagnosed with cancer of the head and neck, they have access to one of the country's best treatment centers, which now has two surgeons available.

Both specialists bring research and evidence-based techniques to Karmanos Cancer Institute at McLaren Flint. This means your patients have the very best in head and neck cancer care at their disposal, right here in Genesee County. These surgeons collaborate with referring physicians to quickly and accurately confirm the diagnosis and identify the type and severity of the disease. They also work comprehensively with Karmanos Cancer Network medical and radiation oncologists in Flint and Lapeer to coordinate the best treatments for each patient.

CASES TREATED WITH SURGERY

Mouth and throat cancers:

- Laryngeal cancer
- Lip/Oral cavity (hard palate) cancer
- Nasopharyngeal cancer
- Neck cancer
- Nose cancer
- Oropharynx (soft palate) cancer

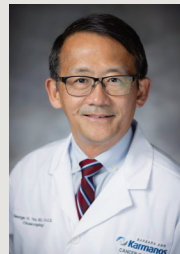

Additional cancers treated include:

- Thyroid cancer
- Salivary gland cancer
- Sinus cancer
- Skin cancer in the head and neck area (melanoma, basal and squamous cell)

THE HEAD AND NECK PHYSICIAN ONCOLOGY TEAM
